

Ram Promaster Wheelchair Ramp System

YEARS: 2019 – CURRENT

UPFIT: WAV OR TRANSPORTER

WHEELBASE: 159"

ROOF: HIGH

A Versatile Alternative to Power Lifts

For those transporting people in wheelchairs, Drivege's Ram ProMaster Ramp System is a versatile and efficient ramp and kneeling solution offering a simple, manual alternative to power lifts. It's the perfect solution for senior care and wheelchair transportation. The maintenance-free aluminum ramp is 35.8" wide and easy to deploy and can be used as an efficient equipment mover whenever needed.

Features

- Ramp deployment is shock-assisted for quick and easy operation
- Hydraulic kneeling system operates with the touch of a button
- Kneeling lowers rear end a full 6" down to a height of 15¼", creating a 9.25° ramp angle
- Manual ramp operation reduces overall cost of ownership compared to powered lifts
- Available with SmartFloor™ flexible flooring system
- Ram pool dealer savings

Ramp

Lightweight ramp quickly folds to its upright stowed position and locks in place.

SmartFloor™ System

Our exclusive SmartFloor system can provide unlimited seating and wheelchair layout options.
